\*課程大綱包括:修課條件、課程目的、課程內容、上課方式、成績評量、參考書目...等

## **臨床兒童心理學實習一**

這是開放給臨床心理學組的研究所學生，一個為期六個月的實習課程。此課程之實習地點在台大醫院內部的兒童心理衛生中心。實習學生也將會在自閉症日間看護中心、遺傳醫學及物理復健部進行小型的實習課程。實習學生也會接受自閉症兒童臨床初診、心理衡鑑與治療、行為介入計畫等的訓練。病患族群以學步兒、學齡兒童及青少年為主。欲修習此課程的學生必須先行修習過臨床兒童心理學及兒童衡鑑。

## **Internship in Clinical Child Psychology I**

This is a 6-month clinical internship course for Master-level students in the Clinical Psychology Program. This rotation is located within the National Taiwan University Hospital system. Interns will operate out of the Child Mental Health Clinic. They will also have mini-rotations in the Autism Day Care Center, Medical Genetics and Department of Physical Medicine and Rehabilitation. Interns will receive training in clinical intake, psychological assessment and treatment, and behavioral intervention program for children with autism. Main clinical population consists of toddlers, school-aged children and adolescents. Prerequisite courses for this rotation are graduate courses in Clinical Child Psychology and Child Assessment.
