	課程大綱	
課程概述	This course provides an introduction to the field of second	
	language acquisition (SLA). It will cover issues and problems	
	in current SLA research and theory; background on the	
	historical development of the field; analysis of learner data;	
	and reading research articles in SLA.	
課程目標	Students from this course are expected to understand the	
	issues and problems in current SLA research and theory, and	
	to be able to analyze second language learner data from	
	multiple perspectives. They are also expected to understand	
	the connection between SLA theories/research and	
	teaching/other-language related activities.	
課程要求	Active class participation (oral contributions), term paper
