Practical Audio-Visual Chinese 1

Course Summary

This is a beginning course in Mandarin, so there are no prerequisites to enroll. This class is designed to help students acquire knowledge of spoken and written Chinese and to assist them in gaining proficiency and accuracy using these skills in real-life situations. The curriculum emphasizes the development of listening, speaking, reading and writing skills, especially for everyday topics.

Course Goals

1. Acquiring knowledge of the pronunciation and tones of Chinese.
2. Learning the grammatical principles of Chinese.
3. Conversing on a limited number of personal topics.
4. Reading short narrative and descriptive texts.
