

# **Regional Economics**

**Graduate Institute of Building and Planning  
National Taiwan University  
【544 M3690】  
Spring Term, 2008**

Shin-Kun Peng

## **Contents**

### **Ch.0 Introduction**

### **Ch.1 Agglomeration Economics**

- 1.1 Introduction
- 1.2 Cities , countries, and regions: past and future
- 1.3 Why do we observe agglomerations?
  - 1.3.1 Agglomeration and increasing returns
  - 1.3.2 Agglomeration and externalities
- 1.4 On the relationship between space and economics
  - 1.4.1 Space and the competition paradigm
  - 1.4.2 Spatial competition

### **Ch.2 Monopolistic competition and optimum product differentiation**

- 2.1 Pricing behavior
- 2.2 Characterizing substitution and competition
- 2.3 Dixit-Stiglitz model of monopolistic competition
- 2.4 Dixit-Stiglitz model with spatial context
  - 2.4.1 Assumptions
  - 2.4.2 The Model
  - 2.4.3 The Analysis

### **Ch.3 Core and periphery**

- 3.1 Introduction
- 3.2 Assumption
- 3.3 Derivations
- 3.4 The model
- 3.5 Determination of equilibrium
- 3.6 The core-periphery model: the numerical simulation

### **Ch.4 Skilled and unskilled labor with Core-periphery model**

- 4.1 Introduction

- 4.2 The footloose entrepreneur model
- 4.3 Equilibrium and stability

#### **Ch.4-C Fundamental of the ‘New Economic Geography’**

- 4.1 Introduction
- 4.2 The point of view of traditional and ‘New’ trade theory
- 4.3 Endogenous core-periphery patterns
- 4.4 Globalization and the spread of industry
- 4.5 Concluding remarks

#### **Ch.5 Globalization and the inequality of nations**

- 5.1 Introduction
- 5.2 The model
- 5.3 The equilibrium
- 5.4 The examination
- 5.5 The analysis
- 5.6 Discussions
- 5.7 Concluding remarks

#### **Ch.6 Agglomeration with vertically linked industries**

- 6.1 Introduction
- 6.2 Assumption and the structure of the model
- 6.3 The single industry model
- 6.4 The vertically linked industries
- 6.5 The general equilibrium
- 6.6 Economic implications

#### **Ch.7 Agglomeration and trade with alternative specifications**

- 7.1 Introduction
- 7.2 Assumption and the structure of the model
- 7.3 Short-run price equilibria
- 7.4 When do we observe agglomeration?
- 7.5 Optimality versus equilibrium
- 7.6 The impact of workers’ expectations on the agglomeration process
- 7.7 The impact of intra-country trade cost
- 7.8 Concluding remarks

#### **Ch.8 Economic integration and agglomeration in a middle product economy**

- 8.1 Introduction
  - 8.1.1 Trade and equilibrium
  - 8.1.2 Trade and growth
  - 8.1.3 Agglomeration and trade
  - 8.1.4 Agglomeration and growth
- 8.2 The basic structure
- 8.3 The intermediate good sector
- 8.4 The final good sector
- 8.5 The consumer
- 8.6 The equilibrium
- 8.7 Stead-state equilibrium
- 8.8 Comparative static analysis
- 8.9 Conclusion and extensions
  - 8.9.1. Conclusions
  - 8.9.2. Extensions

## **Ch.9 Economic Geography with Tariff competition**

- 9.1 Introduction
- 9.2 The model
  - 9.2.1 Non-agglomerated configuration
  - 9.2.2 Agglomerated configuration
- 9.3 Tariff competition
  - 9.3.1 When the transport cost is large
  - 9.3.2 When the transport cost is small
- 9.4 Simulation
- 9.5 Concluding remarks
- 9.6 Concluding remarks

## **Ch.10 Unskilled labor migration in a core periphery economy**

- 10.1 Introduction
- 10.2 The Economy
- 10.3 Spatial equilibrium with core-periphery
- 10.4 The Comparative static analysis of migration
- 10.5 The welfare analysis
- 10.6 Concluding remarks
