

**Course**            風險與保險專題研討 II (Spring 2010)

**Lecturer**        王仁宏

TEL: 0986-720-054 (Email:jenhung@cc.shu.edu.tw)

**Objectives**

The required course intends to introduce students to contemporary developments in risk theories and how these theories are used to analyze issues in insurance.

**Grade** Score = 50% Participation + 50% Report

**Course Outlines**

The course mainly proceeds in seminar form, that is, participants are responsible to present (in turn) and discuss the chosen papers. Papers will be selected from recent issues of the top insurance academic journals. The following topics may be covered:

1. Adverse Selection
2. Moral Hazard
3. Demand for Insurance
4. Catastrophe Risks
5. Insurance Pricing
6. Longevity Risks
7. Government Intervention
8. Risk Theory
9. Insurance Finance.
